CAREER SUMMARY

A Backend-oriented Software Engineer with a strong focus on Java and Spring Boot. My goal is to start as a Backend Developer. I seek opportunities to contribute to real-world backend systems while continuously improving my frontend skills to provide end-to-end solutions.

PROJECTS

Bus Booking System (4 members)

Backend | Frontend

Leader | Oct, 2025 - Dec, 2025

- Developed a bus booking API focused on security, scalability, and maintainability.
- Implemented JWT and OAuth2 logins (Google, Facebook).
- Used MapStruct for DTO mapping, global exception handling (@RestControllerAdvice), and SLF4J logging.
- Designed the database with MySQL and JPA/Hibernate for schema management.
- Integrated RabbitMQ for async email notifications (Brevo SMTP with Thymeleaf templates).
- Integrated VNPay sandbox for online payments and guest checkout flow.
- Provided role-based access control (Admin, Staff, Customer) and method-level security with @PreAuthorize.
- Documented APIs with SpringDoc OpenAPI (Swagger UI) and JWT Bearer auth.

Tech Stack: Spring Boot, Spring Security, OAuth2, JWT, MapStruct, MySQL, JPA/Hibernate, RabbitMQ, VNPay, Thymeleaf.

Lego Shop Management Desktop Application(4 members)

Backend

Member | Feb, 2026 - Now

- Implemented BCrypt authentication and role-based access control (40+ permissions).
- Built CRUD with filtering, pagination, and sorting using 3-tier architecture (GUI–BUS–DAL).
- Developed HR module for attendance, leave requests, payroll, and discipline/reward handling.
- Applied OOP design patterns: Singleton, Factory, Builder, and generic interfaces (IDAL<T,K>, IBUS<T,K>).
- Followed clean code and separation of concerns.

Tech Stack: Java 21, JavaFX, MySQL, Hibernate, HikariCP, Maven.

EDUCATION

2022 - 2026 | Saigon University (GPA 3.38/4.00)

Bachelor of Web Development - Software Engineering

SKILLS

- Backend: Java, Spring Boot, Spring Security, JWT, RESTful APIs
- Database: PostgreSQL, MySQL, Redis
- Concept: OOP, DI, SOLID principles,
- Tools: Git, Postman, Swagger, IntelliJ IDEA
- Practices: Clean Architecture, JPA/Hibernate, Exception Handling, Microservices

AWARDS & CERTIFICATIONS

Aptis ESOL B2

Microsoft Office Specialist (MOS)
